Gerodontology Dental Nurse Training Programme

School of Dental Care Professionals are delighted to introduce the **Gerodontology Dental Nurse Training Programme**

Information
This blended, online course aims to provide dental nurses with knowledge and understanding of older person care and to support clinicians in treating older patients.
Education will be delivered via MS Teams over 4 half day sessions.

Course Description
This short programme has been designed for dental nurses wanting to learn more about older person care and to support clinicians in treating older patients.

Aims
The aims are to discuss the aging process and management of older people in primary care, during domiciliary care, and in residential care.

Objectives
The programme will discuss and describe:
The aging process and age-related changes to oral health and the oral cavity.
Management of aging dentition including risk factors of oral disease, preventing disease, and treating older patients.
Domiciliary and residential care including visit planning and referrals to multi professional teams.

Learning Outcomes
By the end of the programme, you will be able to apply knowledge and understanding to supporting an older patient population.

Dates:
Course dates are found on Maxcourse
All sessions are:
3 Hours

Applicants must be GDC registered.

Dental nurses must have access to a digital device (with camera and mic) and have internet connectivity.

Registration with NHSE elfh Hub (e-lfh.org.uk) is required.

Independent learning is required between sessions.

Attendance to the programme constitutes **12hours of verifiable CPD**.

Expressions of interest for this course should be sent to leedsth-tr.SODNinfo@nhs.net
