The Leeds  
Teaching Hospitals  
NHS Trust

# innovation popup

At the forefront  
of future healthtech

## The **Innovation Pop Up** is a well-established hub for innovation at Leeds Teaching Hospitals NHS Trust, driving collaboration and advancements in healthcare.

Building on the Trust's substantial track record of excellence in research and innovation, the Innovation Pop Up will focus on translational research and innovation approaches to test and evaluate new ideas and technologies and develop collaborations with clinical innovators, entrepreneurs, small and medium sized businesses, large pharmaceutical and medtech companies.

Located in a prime city centre site, the ground breaking Innovation Pop Up is the front door to innovation at the Trust. In the centre of the Leeds City Region healthtech industry and academic cluster, the Innovation Pop Up is an exciting new initiative benefitting from being located within one of the largest NHS teaching hospitals in the UK.

The Innovation Pop Up aims to strengthen the innovation culture within Leeds Teaching Hospitals NHS Trust as part of the journey towards establishing the new Innovation Hub in the Old Medical School.

The Old Medical School in Leeds is being redeveloped as a vibrant Health Tech Innovation Hub at the heart of the City's Innovation Arc. It will be a place where innovators and businesses collaborate with LTHT and its core research partners to transform scientific research into products and services that will advance healthcare and drive economic growth, as a catalyst for West Yorkshire's thriving Health Tech ecosystem.

## Our Innovation Vision

To make Leeds Teaching Hospitals NHS Trust and its strategic partners global leaders in the successful translation, adoption, scaling and spread of healthtech innovation. To create the most compelling destination for healthcare talent, academic and healthtech industry partnerships.

Built on tradition, driven by innovation

## An extensive offer for business in a welcoming environment

The Innovation Pop Up offers an agile culture on the NHS side of innovation. Staffed by a welcoming, knowledgeable team, it offers an extensive range of services including:

- Introduction to relevant LTHT staff including those across our NIHR (National Institute for Health and Social Care Research) infrastructure
- Opportunities to demonstrate your technology in the Trust
- Facilitated access to support from Innovation Pop Up Partners
- Signposting into the regional and national innovation ecosystem
- Invitation to attend innovation events in the Trust
- Exclusive access to participate in our monthly innovation clubs
- Access to educational sessions relevant to navigating innovation in Leeds and the wider NHS, delivered by LTHT staff and/or our innovation partners
- Access to additional services to support product development, project scoping, stakeholder engagement (including PPIE) and project delivery (additional services may be chargeable)
- Opportunity to contribute to our Research and Innovation Newsletter, distributed to over 22,000 LTHT staff

Plus, much more...

## See what our members say about working with us

### Spotlighthealth.ai

The Innovation Pop-Up has been instrumental in connecting us with clinicians, providing invaluable insights into diagnostic pathways and the most pressing challenges in the process. Their support has helped us shape our product development to deliver the greatest possible value.

Our project involves coordinating multiple NHS departments, including data, ethics, gynaecology, and sonography, and the Innovation Pop-Up has been an essential bridge between our business and the inner workings of the NHS, enabling us to navigate this complexity with greater ease and impact.

### Better Medicine

At Better Medicine, we work at the cutting edge of AI in radiology, so being part of an ecosystem like the Innovation Pop Up - especially one as forward-thinking and digitally enabled just made sense. It's a place where real collaboration happens, and if you're looking to take your innovation to the next level, this is where you'll find the clinical and academic partners to help make that happen.

### Access to Words

The Innovation Pop Up is a unique space where innovators, clinicians, and academics come together as a real community. It gave us access to the NHS ecosystem, expert advice, and invaluable connections - without needing a big budget. For us, joining the Pop Up was an easy yes.

### Medishout

The Innovation Pop-Up has been an incredible platform for MediShout to showcase our cutting-edge technology, engage key stakeholders, and spark impactful conversations around healthcare innovation. It's a powerful space to demonstrate how digital solutions can streamline operations and boost efficiency.

With support from The Innovation Pop-Up, our collaboration with LTHT and an orthopaedic supplier has already delivered transformational improvements in operational workflows and efficiencies across the Trust.

If you are interested in investing in innovation activity or sponsorship opportunities, please contact [innovation.lth@nhs.net](mailto:innovation.lth@nhs.net) who will put you in contact with our Head of Business Development and Innovation (Research and Innovation Department), Dr Richard Evans.
